

Environmental Health Status Report

Analyzed 11 cities globally. Delhi records AQI 210 (Very Unhealthy)
Overall environmental health score of 50/100. Water quality: Poor
Air pollution — take daily precautions.

Unhealthy PM2.5: 79 $\mu\text{g}/\text{m}^3$
Water: 42/100 NO₂: 88 $\mu\text{g}/\text{m}^3$

AIR QUALITY

Top 3 Cleanest Cities

1	Sydney	AQI 27
2	Tokyo	AQI 36
3	London	AQI 43

POLLUTION ALERT

Top 3 Most Polluted

1	Ghaziabad	AQI 228
2	Delhi	AQI 210
3	Beijing	AQI 188

ANOMALY DETECTION

Biggest Anomaly

Ghaziabad deviates most from the group average (AQI 115), recording AQI 228 — a **113-point** deviation. Likely driven by localized industrial activity, traffic density, or seasonal biomass burning.

SURPRISING OBSERVATION

Most Surprising Finding

Kolkata shows the largest divergence between air quality (score: 65) and water quality (score: 42). This highlights how infrastructure investment, geography, and policy differ across environmental dimensions.

ACTION PRIORITY

Priority Actions for You

Your AQI of **210** in Delhi: Avoid outdoor exercise. Wear N95 masks. Run air purifier. Water quality 42/100: Use an RO/UV purifier for drinking water.

WATER QUALITY ALERT

Worst Water Quality City

Ghaziabad has the lowest water quality score in the dataset (37/100). Residents should prioritize water filtration, avoid unboiled tap water, and check local municipal advisories. Groundwater contamination is a key concern in high-AQI cities.

Personal Recommendations

TAILORED GUIDANCE

DAILY ACTIONS
High Pollution Protocol

- Wear N95/FFP2 mask outdoors at all times
- Avoid outdoor exercise 6–9 AM (peak pollution)
- Check AQI app before leaving home
- Keep windows closed — run air purifier on high

INDOOR/OUTDOOR
Air Quality Guidance

- Stay indoors 80%+ of the day
- HEPA purifier — run continuously
- Snake plant + peace lily help filter air
- Seal window gaps with weather stripping

HAIR CARE
Moderate Hair Protection

- Cover hair during prolonged outdoor exposure
- Wash hair every 2 days minimum
- Leave-in conditioner to protect shaft
- Weekly scalp oil massage to detox

SKIN CARE
Moderate Skin Protection

- SPF 30+ every day, regardless of clouds
- Gentle double-cleanse every evening
- Niacinamide serum for pollution damage repair
- Hyaluronic acid to maintain skin barrier

WATER SAFETY
Water Quality Alert

- Use RO+UV purifier for all drinking water
- Boil water for cooking if no purifier available
- Avoid tap water for infants and elderly
- Check municipal water quality report monthly

RESPIRATORY HEALTH
Breathing & Lung Protection

- Consult doctor if asthma/COPD diagnosed
- Use prescribed inhaler before going outdoors
- Avoid incense & candles indoors (PM source)
- Monitor blood oxygen (SpO₂) daily

 Environmental Health Report – Delhi

EnvHealth Analyzer v3 · 8/6/2026 · Synthesized Data

Data Freshness & Assumptions: This dashboard uses synthesized environmental data generated algorithmically with city-name-seeded pseudo-random generation, calibrated against WHO, CPCB (India), and US EPA benchmarks. Real-time data requires IQAir, OpenAQ, or CPCB API integration. AQI follows the US EPA 6-band standard. Water Quality uses a composite index. Report generated: 8 June 2026.
